PCC New Polled First Lady 30/2 is our best smooth POLLED Spring 2022 baby. At the time of pictures and videos she had only been weaned from her donor mother about 10 days. Boy did the cow do a GREAT job and did the calf ever hold together. This is probably the heaviest muscled and widest based smooth polled baby at this time in their life that we have raised. The groove down her back will hold water if it ever remembers to rain again. She is perfectly pigmented with no red tinge. Her long neck

comes way out of the top of her shoulder, and she carries that beautiful slick head with an elegance that demands attention.

Her family tree offers a unique and exciting foundation. Mr. V8 807/7 is a JDH Sir Compian Manso son out of a flushmate sister to +Mr. V8 191/7 & +Mr. V8 194/7 resulting from the cross of +JDH Sir Avery Manso and +Miss V8 464/6. He is a dark pigmented, sound structured, huge bellied, and incredible gentle bull. Lady's dam is the black LMC Polled Halle cow that is a daughter of +LMC LF Ambassador and out of a cow that results from crossing +JME Mr. Suvacrat 225 and +-GS Emperor Didor 135. This female is a genetic outcross to many of today's popular bloodlines as she has no influence of +JDH Mr. Elmo Manso, +Mr. H Maddox Manso 684, +Mr. V8 458/7 "Noble", or +Mr. V8 380/6 making her valuable as a breeding piece.

First Lady has been started on a halter and Phillip Cattle Company believes that she will show and compete on any level. Although we are offering all of this heifer for sale, we would love to haul her with us to open shows. The progressive breeders will appreciate that First Lady is extremely performance-oriented charting positive for 14 of the 16 measured performance traits.

Phillip Cattle Company reserves the right to two IVF aspirations at the buyer's convenience with a guarantee of six transferable embryos each procedure.
