WALTERS Joannie 491 is another one of the youngsters in the sale. Another daughter of WALTERS Hollis and out of a JDH Humberto Manso daughter. Her dam is a walking tank year round - nursing a calf or dry! Joannie has an extra blue tint to her at this time for buyers interested in pigment. She has good growth indicators from her sire, Hollis, with a super refined and elegant style that should put a lot of "look" into her future offspring.
