WALTERS Jennson 486 is one that is hard to part with. This uniquely bred heifer is sired by WALTERS Hollis, who goes back to Maddox, and an up and coming donor for Walters Livestock who is a daughter of out of the JDH Sir Alamo Manso bull and Miss B-F 240/0, a top donor from the Bennett Farms program. Jennson is our pick of the gray females in this set. She is sound at the ground with a big foot and stout flat bone while being super thick and big topped all the while giving you a show stopper profile. Take a good hard look at Jennson, you will be sure to like her. NOTE: Walters Livestock

retains, at our expense, the right to two successful IVF aspirations from this female after completion of her show career.
