ECC LG Polled Rio Queen 559/1 (S) is an open replacement heifer that will be ready to breed this Fall. The sire to 559/1 is LMC Polled Integrity 93/0 (P) that has been used by several progressive Brahman operations with 85 registered progeny, to date. One of the featured offspring of Integrity is K-K Polled Lily 100/9 that was a many-time show winner for the Sellman family. The dam to 559/1 is a MEBA-branded female that we

purchased from Mexico. The MEBA cattle were purchased due to their fertility and maternal traits and have been nothing but impressive with their milking ability and consistency to breed back. As might be expected from the superior genetics backing 559/1, she ranks in the top of the breed for Birth Weight EPD and Marbling which only add value to her utilization as a cornerstone breeding piece.
