[Click Here to View Pedigree & EPD'S](#)

Whether you want to add high performance and EPD values to your progeny or just brute mass and power, CF Gulf Stream is proving to consistently provide both to savvy breeders. From his maternal origins in The Picture Cow, Gulf Stream receives a big punch of feed efficiency, fleshing ability, and fertility. Then with Riptide as his father, the conformation, bone structure and visual appeal needed for profitability is inherited. With the ability to breed this great herdsire directly to Oasis progeny, the

field is wide open to use this straw of semen on a variety of donors to create easy value and increased performance. Top 3% \$T, Top 10% \$M, and Top 5% \$FE.

Semen stored at Transova and must be transferred or picked up within 60 days of sale. Semen not claimed after 60 days will be forfeit.

Quantity: 1
