For those with a discriminating taste for extreme attractiveness and appeal, the female progeny resulting from this embryo mating are sure to satisfy the pallet. From the super clubby, perfectly angular cut possessed by Screamin Queen to the distinguished extension, mass and depth portrayed by Unico this mating is sure to produce a true show stopper. The combination of style genetics coming from Bravado and Bebe produced the 2021 JBBA National Champion female, while Solution and Bengal Queen deliver the performance and mass associated with Dream Catcher and Tank. Beyond a highly desirable design, an EPD profile placing \$M in the Top 10%, and dominant cow family lines, this little heifer calf to come could also be POLLED.

Embryos are frozen IVF grade 1 quality and stored at TransOva in Bryan, TX.

All embryos must be picked up or transferred within 60 days of purchase. If the initial three embryos do not result in one 90-day pregnancy, one extra embryo will be given to the buyer at no charge in lieu of the guarantee. The resulting sex of the calf is not 100% guaranteed, however sexed embryos are generally over 90% accurate.

Quantity: 3
