Genetically speaking, this mating is a No-Miss. CF Gulf Stream back over CF Sweet Visions puts Riptide and Vision together for one of the most proven and consistent combinations in the Collier Farms program. This gorgeous donor is a half sister to CF Bebe, the 2019 Houston Res. Supreme Champion female by Riptide. This embryo combination is essentially a 2/3 sibling to her with the extra bonus of a little Vision mixed in. Sweet Vision's first calf was an absolute looker and now you have those same POLLED genetics at work with the EPD performance and growth of Gulf Stream.

Embryos are IVF grade 1 quality and stored at Transova Genetics in Bryan, Texas. All embryos must be picked up or transferred within 60 days of purchase. If the initial

three embryos do not result in one 90-day pregnancy, one extra embryo will be given to the buyer at no charge in lieu of the guarantee.

Quantity: 3
