A female we would bet our entire program on! Yes, we are that serious about ECC Polled Samantha 880/4 (P). Initially, we were going to wait and release Samantha the week of the sale as a "Surprise Lot," partially because Brooke was trying her best to convince Benton not to sell her. She was unsuccessful, but her loss is your gain! In our 13+ years of breeding Registered Brahman Cattle, never have we seen one who looks this good, this young. Look at her bone, depth of side, upheadedness and overall muscle shape — and she's only a month old! This female just keeps getting better with age and we can't wait for you to see her in the flesh.

Samantha combines the genetic powerhouse pedigree of ECC Polled Maverick 302/9 (S) over ECC Sherri K Crickett 302 (S), the very first animal to wear the ECC brand. Sherri K was an integral part of our show string and has proven to be one of the top donors on the ranch with 21 progeny to her credit, elevating her to being one of the Top 10 cows in the breed for registered Polled progeny. One of the most influential offspring by Sherri K is ECC Polled Rio King 104/8 (P), who has been used successfully by us and Jordan Grazing who purchased Australian exclusive rights last March. Based on her build and superior genetic background, we think Samantha should be a competitive show heifer and certainly a future donor prospect. We are seeking a progressive Brahman breeder to partner with on Samantha as we feel she is the “next great one” and will have a lasting impact on our breeding program.

### **1/2 Interest Terms**

ECC will retain half (1/2) interest in the female. Buyer will be purchasing half (1/2) interest (50% ownership and 50% possession). ECC will halter break and show the female for the duration of her show career, unless otherwise discussed after the sale. All show costs, including but not limited to, feed, registration fees and travel expenses will be split 50/50. Female will be registered as multiple-owned between both parties.

**Quantity: 1**
