STOP, you can't miss this one! There is no question that the powerful build of ECC AX Polled Steely 704/2 (S) caught your eye! You must appreciate her heavy structure, deep rib, length, levelness and femininity. One of the things that many prospective buyers will find attractive is that Steely sells bred 90 days to, you guessed it, ECC Polled Maverick 302/9 (P). If that's not enough to get you excited, take a look at her pedigree! Steely is out of ECC Ms. Rio Queen 511 who is a donor for Benton and Brooke, and represents one of the strongest cow lines in our herd having produced three elite daughters that have been sold to progressive operations for foundation females or shown successfully. Steely's dam is out of D Bar Miss 905/1, who is also the

dam to our performance-oriented herd sire, ECC AX Polled Rio King 620. In addition, she is the only daughter selling by ECC Polled Rio King 104/8 (P) who combines two of our most proven and productive animals on the ranch — ECC El Caporal 301 (S) and ECC Sherri K Crickett 302 (S). It should also be known that 104/8 is a carcass driven sire, as validated by him producing a PRIME-Grading carcass and his offspring gaining over 3.5 lbs/day. A great breeding piece, and a 2-in-1 package deal!

Terms

ECC reserves the right to one (1) flush or the split of two (2) flushes, minimum of six (6) embryos, on all heifers in the sale.

Quantity: 1
