Benton's pick of the sale! ECC Polled Gloria 809/3 (P) has been one of our favorites since weaning, largely due to the physical attributes that she offers. She's another ultra-feminine female that carries herself beautifully through her front 1/3. For us, she has an ideal hip structure and we predict she will be an easier calver. On paper, she shines in Growth and Maternal Traits, charting positive for Calving Ease, Birth Weight, and Milk. Let's dive into the unique genetic background that she offers. Her dam is a female that we and our friends at La Gaviota Cattle Co. hand selected and imported from Mexico. Her dam, 305/1, is a consistent calver and is sired by the Reserve International Champion and proven J.D. Hudgins, Inc. herd sire, JDH Mr. Larry Manso.

On the bottom side of her pedigree, Gloria is by ECC Polled Chief 719(P), one of our top herd sires that results from the cross of LMC Polled Sambo 45/0 (P) and D Bar Miss 768/1, two of the most influential animals on the ranch. As you might expect from the proven genetics behind Gloria, she combines the essentials of the 4 P's — Polled, Performance, Pedigree and Phenotype!

### **1/2 Interest Terms**

ECC will retain half (1/2) interest in the female. Buyer will be purchasing half (1/2) interest (50% ownership and 50% possession). ECC will halter break and show the female for the duration of her show career, unless otherwise discussed after the sale. All show costs, including but not limited to, feed, registration fees and travel expenses will be split 50/50. Female will be registered as multiple-owned between both parties.

**Quantity: 1**
