Here's another great Madam Secretary daughter. JT 171, JT186 and JT174 are among those that were never paid for a couple years ago. Don't hold her cow production against her. She's been around the world, starved to death and returned home to breed right up. However, her calf was born in the January 2024 snow storm and didn't survive. You can take my bad luck and create yourself a deal. This is a super individual with a nice udder.
