Legends live on forever through their progeny and Logan's Bengal Baby is smiling down on this great donor daughter. LBB's last is exactly what her name implies. She was the \$65,000 last daughter of the great Logan's Bengal Baby that ever sold (as an original open heifer -not traded). Goodwin Beefmasters purchased this lasting impression and quickly went to the newest and hottest polled bull in the breed, Daybreak. This mating again creates a shot at putting Daybreak on the full sibling to the great Solution bull, still used throughout the breed. When breeders combine these kinds of proven lines with the best of the new, a building block is created that will allow the breed and elite programs to expand their genetic strength while keeping the consistency and profitability in place. Double back on the PE \$T index of 128 in the top 5%!
