Here is the opportunity to purchase a flush out of 2 unique and superior bred classic beefmaster females. Both of these females have small heifer calves at side and are ready to work now. These 2 cows offer premier predictable pedigrees in a perfect package loaded with depth and bone. JT Franchise's impact has been obvious as her progeny has averaged \$16,000. Her success is not without reason. She's one of the rare donors that calves every year, still has great feet and a perfect udder, and usually produces a lot of oocytes. Lyssy 100/522 is just a special as Maverick and Oasis are considered no slouches. She is early in her career, but the possibilities are endless. Oasis daughters are thriving across the breed, and the Maverick combination makes this female a bit more exclusive. We will guarantee 6 transferable embryos. The flush will take place at your choice of Transova or Vytelle here in West Tennessee.

Quantity: 1
