This elite female is a flushmate to lot 4 and out of one of our top donors. Just like her sister, Miss ELC Abigail 16/0 (P) is moderate framed, deep ribbed, and heavy muscled. These phenotypic traits are to be expected based on the build of both her sire and

dam. It should also be recognized that the pedigree of Abigail combines some of the breed's polled greats to include +Mr. V8 279/7, +LMC LF Ambassador 700/7, and LMC +S Polled Madonna. As you might expect Abigail comes "performance packed" ranking in the top of the breed for the essential traits of Growth & Milk.

Only in a sale of this caliber would we even consider selling a heifer of this quality but we are SHARING OUR BEST!

ELC Cattle Company reserve the right to one IVF aspiration or conventional flush with a guarantee of 6 Grade 1 transferable embryos. Work to be done at by a certified embryologist at the buyer convenience and at seller expense.
